

The Perfect Inventory Setup Checklist:

Check all the items your dealership is able to execute with your current inventory management system! The “Perfect Inventory” Setup would include all of the following:

Sourcing:

- See vehicles available for purchase at local auctions
- See detailed auction info like condition report
- Evaluate available vehicles
- Sort by market demand and price
- See CARFAX/AutoCheck on all vehicles

Pricing:

- Evaluate trades and purchased vehicles for competitive market pricing
- Monitor inventory to make sure pricing continues to be competitive
- Automated pricing format that marks down aging vehicles

Recon:

- Vehicle purchase guidance through the recon process with associated vendors
- Communicate with vendors for quotes, and issue P.O.s to authorize work
- Establish an expected return time on vehicles at third party repair facilities.
(Such as: Track progress and identify avg time in each step of the recon process to identify bottlenecks).

Listings:

- Hi Res 4K Images (Not 640 X 480 px images!)
- Easy lot services uploads with SLR or smartphone
- Ability to add OEM option packages and colors with click of the mouse
- DMS polling of data
- Data blending from multiple sources (DMS/Pricing tool/Photo Source) to create the ideal inventory listing
- Window Sticker/Buyer's Guides and QR Codes that connect to website VDP
- Custom overlays
- Options on image
- HotSpot functionality
- 360 interior and exterior videos
- Export videos to 3rd party sites, including YouTube
- Custom exports
- Data Transfers for rebates to be subtracted from the dealer price on New, and exported to 3rd parties
- Apply discounts to custom vehicle sets for website and/or 3rd party sites
- 17 digit VIN Decoding

What boxes are left unchecked?

If you had Units - the answer would be none. Units offers these features and more at a fraction of the cost of the other guys. Don't believe us? Give us a call at **877.551.2555** and we'll prove it to you!
